Wheels to Work Recipient Success Story:

Steve came to the Wheels to Work program in February of 2019. He had not been employed for some time due to incarceration, so he started working with the Workforce Innovation & Opportunity Act (WIOA) program to get some training. The WIOA program helped Steve travel to and from his training, but he knew he would need a vehicle of his own once he completed the training and started to work full time. Due to his lack of transportation, he was referred to the Wheels to Work program. He was able to complete his W2W classes quickly by attending the Financial Wellness Conference (put on by the Get \$mart Wausau Coalition) in February while also attending the WIOA training and working part time. He obtained his driver's license and was approved to receive a donated vehicle in March. Steve was awarded a vehicle at the end of April and completed his Apprenticeship program with all A's in May. Because he received a vehicle through the Wheels to Work program, Steve was able to complete the Apprenticeship program and got a \$3/hour

raise. By the end of 2019, Steve was back in school, this time pursuing an Electromechanical Technology Associate Degree while still working full time. But the real proof of the success of Steve's story comes in his own words, taken from a Thank You letter he sent the W2W program in late 2019:

"Thank you so much for helping me into a vehicle I enjoy driving. Getting to work, school and my son's functions easily is a dream come true. It is sometimes hard to believe I deserve such nice things... so I've taken good care of it. :) Oil changes, service when needed and scheduled for new tires."

Steve is a powerful example that the tools provided by the Wheels to Work program are making a real impact and changing lives.
